

## Plant Modeller & Pipe Component Modeller

This training is meant for Component Modeller designers. We recommend that the Basic User training has been participated before this training.

<b>Elementary knowledge:</b>	Basic User training recommended
<b>Total training days:</b>	2 days
<b>Maximum participants:</b>	6 users

---

### Day 1

- Modelling of equipment (Pump, heat exchanger etc.) without parameters
- Importing 3DC or 3D Dump
- Utilizing 2D DXF/DWG for component modelling

### Day 2

- Parametric modelling of equipment
- Attributes
