

## Release notes

---

Below are the release notes for CADMATIC Draw version 2023T2.

The following conventions apply to these release notes:

- File names, path names and environment variables are in *italics*.
- Commands, options, dialog names, and menu choices shown in the user interface are in **bold**.

## Bug fixes

- Fixed a bug that could cause text style's font to be replaced even though it's found in the computer.
- Fixed a bug that caused snap to work incorrectly with custom objects.
- Fixed a bug that could cause PDF references to slow the program down in certain situations.
- Replaced some Finnish texts in conversion file editor.
- Fixed a bug that could cause canceling to work incorrectly when the program is closed.
- Fixed a bug that caused thumbnail not to display on file explorer.
- Fixed a bug that caused snap to work incorrectly with clipped reference drawings.
- Fixed a bug that caused Import PDF to size the imported file incorrectly if scaling was skipped.
