

Release notes

Below are the release notes for CADMATIC Draw version 2023T3.

The following conventions apply to these release notes:

- File names, path names and environment variables are in *italics*.
- Commands, options, dialog names, and menu choices shown in the user interface are in **bold**.

New and improved features

Scale	Added a option to define scale factor by using points in the drawing.
-------	---

Bug fixes

- Fixed a bug that could cause the picture in drawing area to stutter if element was dragged at the same time as view was panned.
- Fixed a bug that caused a crash if a previously bound reference drawing was added again.
